PETITION TO REPRINT LETTERS PATENT

Sir:

Pursuant to 37 C.F.R. § 1.181, patentee petitions the Director to have the
subject original Letters Patent reprinted.

STATEMENT OF FACTS

The original Letters Patent was purportedly mailed by the U.S. Patent and Trademark Office ("USPTO") on June 7, 2005. However, the Letters Patent was not received by Patentee's attorneys, and apparently was lost in the mail.

All correspondence received by the undersigned firm from the USPTO for the present case, are recorded in a computer database maintained by the firm. Attached as Exh. 1, is a printout of the database records for the subject case. As can be seen, no record of a Letters Patent having been received appears in the database records, although the records show that soft copies of the patent were received. Therefore, it is believed that the subject Letters Patent was lost in the mail because it was never received by the Patentee's attorneys, even though their correspondence address is of record in this case.

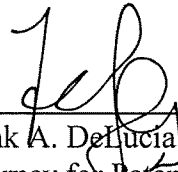

REMARKS

Patentee desires to retain the original Letters Patent. As the Letters Patent was never received, and lost through no fault of Patentees or their attorneys, Patentee respectfully requests that the Director reprint the Letters Patent and provide the reprinted Letters Patent to Patentee's undersigned attorney at the address listed below.

Because the Letters Patent was not received through no fault of Patentee's, it is believed that no fee should be required to have the Letters Patent reprinted. However, if a petition fee is required pursuant to 37 C.F.R. § 1.17(f), please charge the fee to Deposit Account 50-3939.

Patentee's undersigned attorney may be reached in our New York office by telephone at (212) 218-2100. All correspondence should continue to be directed to our address given below.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'F. DeLucia', is written over a horizontal line.

Frank A. DeLucia
